

This project is funded by the European Community's Seventh Framework Programme (FP7/2007-2013) under grant agreement no. 289045

inprofood
Towards sustainable food research

+info: www.inprofood.eu

INPROFOOD aims to find new ways to establish dialogue and mutual learning between industry, academia and civil society.

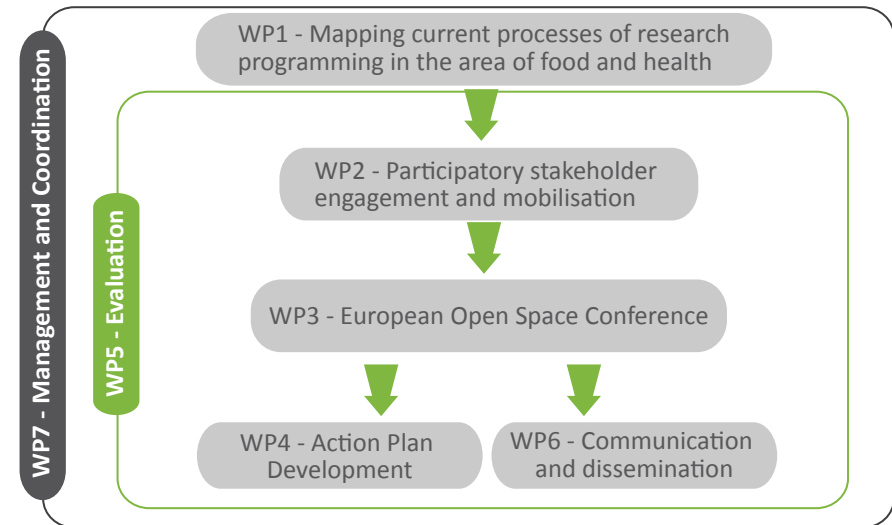

ABOUT PROJECT

INPROFOOD project is funded by the European Community's Seventh Framework Programme (FP7/2007-2013) and started on 1 November 2011 and will run for three years.

OBJECTIVES

- Promote bottom-up development of concepts (processes and structure) of societal engagement in food and health research;
- Investigate current processes and structures of public engagement in food and health research and its current role;
- Develop stakeholder engagement programs both at national and European levels;
- Stimulate the adoption of concrete initiatives of societal engagement in food and health research by forming an action plan.
